

### HONOR

At Granville Urns, you will find exceptionally designed and crafted collections of urns and keepsakes. We know from our own experience that every family has different needs and tastes for memorials. Each collection has five pieces giving families multiple ways to honor and remember their loved one's life.

### CRAFTED

We work closely with a family of skilled Italian artisans to create each Granville Urns collection. Each piece is made with the same precise attention to detail as any work of art. Using the time-honored craft and tradition of wood inlay, we create pieces made from only the finest materials.

### DESIGN

Everything—from pattern design and wood selection to hand-cutting and intensive lacquering—has been passed down and refined from generation to generation. We pride ourselves in the consistent execution of quality in every step of the process.

*Timeless Design • Exceptional Craftsmanship*

## FROM OUR FAMILY TO YOURS

The idea for Granville Urns was inspired by the loss of our uncle and our long search to find a special urn to honor him. During the process, we heard over and over from other family members and friends who were also looking for well-designed and carefully crafted memorials. After our own experience trying to find an appropriate memorial, we decided to combine our talents to help other families remember their loved ones and Granville Urns was born. Our goal is simple: Create exceptionally designed and crafted collections of urns and keepsakes available to families through funeral homes.

## PERSONALIZATION

Granville Urns offers customization to commemorate your loved one. Each urn and keepsake comes with a solid brass plate embedded on the bottom. Plates are engraved in one of three styles: Times Roman, Helvetica and Script.

Our handcrafted memorials are produced in Italy in limited quantities each year. Each comes with a Certificate of Authenticity and is identified by a small disc that references the year it was created and the series number.

Our pieces can  
be engraved  
and shipped  
within 24 hours

Brass name plates are available in Times Roman, Helvetica, and Script.
